Dear Sir/ Madam,

Security ID: GNRL

Security Code: 513536

Sub: Disclosure giving operational update of drilling campaign by the Company & its Subsidiary

In accordance with Part B of Schedule III, read with Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and as part of our ongoing communication regarding the drilling campaign being undertaken by the Company (GNRL) and its step-down subsidiary, GNRL Oil & Gas Limited (GOGL), we are pleased to provide the following update.

GNRL is pleased to announce the completion of its third development well, K13, in the Kanawara field. Due to the heavy monsoon, completion of the well was delayed by two months. The well has encountered a 20-meter oil-bearing zone between depths of 1684 to 1704 meters. GNRL plans to carry out hydraulic fracturing on this well, aiming to commence commercial production by the first week of October 2025.

Meanwhile, the drilling rig is being mobilized to the fourth well location, with drilling expected to begin in the first week of October 2025. From October onwards, GNRL will operate two drilling rigs—one continuing operations in Kanawara, and the second commencing drilling of a 3000-meter deep well in the company's wholly owned North Kathana field.

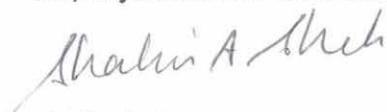

You are requested to take the above information on record.

We will continue to keep you updated on the progress of this significant initiative.

Thanking You.

Yours Faithfully,

For, Gujarat Natural Resources Limited

Shalin Shah
